

## ● DESCRIPTION

Model Number:E3D V6

Product name:E3D V6 remote/direct set

Filament:1.75/3.0mm

Condition:New100%

Nozzle Diameter:0.2/0.3/0.4/0.5/0.6mm

Accessories:Heat sink, fan cover, e3d nozzle,thermistor,heater rod

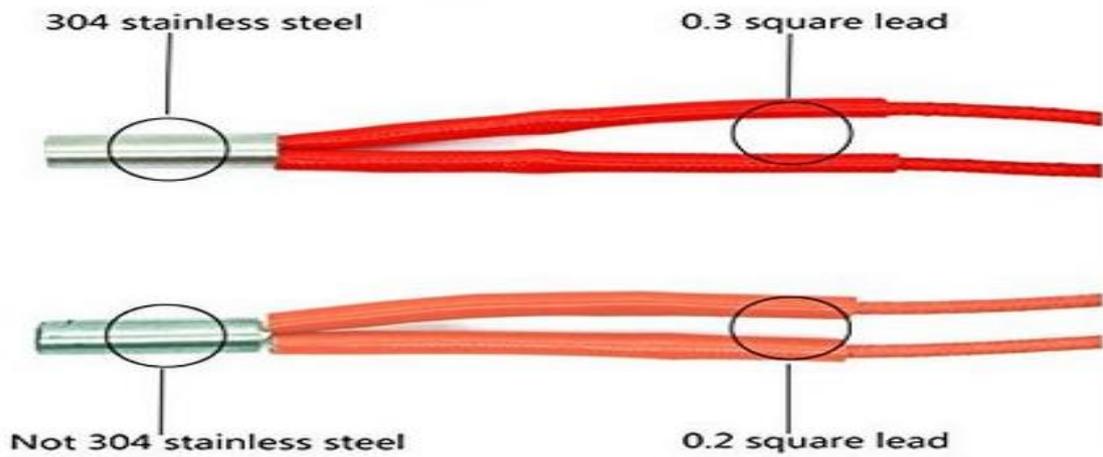

Voltage:12V

Max temperature:180°

## ● FEATURE

- ✓ Reduce the length and diameter of the fan heater, while increasing the number of fins to reduce the number of hot ends while having better heat dissipation and stability.
- ✓ Change the bulky external rotary pneumatic joint into a built-in pipe clamp to realize the combination of feeding tube and heating tube
- ✓ Change the design of the heating block. Make heating rod, thermistor and aluminum block more fully contact, more precise temperature control and more stable heating
