Transform your rooms into an oasis of light with the **Round RGB+CCT LED panel**. This modern LED panel not only offers you impressive lighting efficiency, but also the flexibility to customise the light according to your individual needs.

The **12W LED panel** with a luminous flux of **1100 lumens** delivers an outstanding **light output of 88 LM/W** and allows you to adjust the colour temperature from **2700K to 6500K**. Whether you want warm, cosy light for relaxing evenings or cool, bright light for concentrated work - this panel fulfils your wishes.

Control the round panel easily with a **radio remote control** or a **WLAN controller** for iOS and Android – both available separately. With a **dimming function from 1% to 100%**, you have full control over the light intensity to create exactly the atmosphere you want.

The panel is designed for a voltage of **AC86-265V** and is supplied with a power supply unit. With a **beam angle of 120°**, it ensures even illumination and covers a large area. The robust housing made of **aluminium** and the **PC cover** ensure a long service life and easy maintenance. The panel has a compact size of **F180\*40mm** and fits into a **recess of 145-150mm**, which makes installation simple and flexible.

Update your lighting with the **Round RGB+CCT LED panel**.
